

David Schwartz:

Hong Kong visit, March 20-27, 2018

US based author of best-selling books “How Much is a Million?”, “If you Made a Million”, “Millions to Measure”, “If you Hopped Like A Frog” amongst many others. David is an “Ambassador for Math”. An accomplished storyteller and an innovator in presenting mathematical information in entertaining ways, he connects math and science with literature and daily life.

As a child, David was filled with a sense of awe as he contemplated the universe. The huge number of stars and their sizes and distances never failed to amaze him. With binoculars and a magnifying glass, he also focused on closer subjects like birds, flowers, frogs and bugs. Years later, after looking up at the sky a shower of memories descended and he was inspired to write his first book, How Much is a Million?

Now, almost 50 books later, he spends much of his time finding unusual, whimsical ways to make math and science come alive for kids and adults, making his lively presentations suitable for a wide range of audiences.

Fee*: HK\$12,000 for 4 x 45/60 min presentations (full day) or HK\$8000 for 2 x 45/60 min presentations (half day). **50% discount for subsidized or government aided schools.**

Target ages: 3-12 years old and great presentations for parents too! (45 min presentations for kindergartens, 60 mins for older kids)
