

# Mastering Read Aloud Skills

Master your reading aloud skills and learn the best approach to really engage and inspire your listeners. Learn the art of reading aloud by practicing tone, pace, intensity and mood and the art of inviting them in to discover and live alongside the characters in books, whether it's simply letting them laugh with delight or igniting a conversation about deeper themes, such as friendship, bullying, family, environment or diversity.

## Why Master Read Aloud Skills?

By mastering read aloud skills, you are able to bring a book to life through the use of voice, facial expressions and body language, useful skills for volunteers, parents and educators. The next step is learning how to use the read aloud skills and how to choose books to inspire and open our children's lives to a world beyond their own imagination.

*"The fire of literacy is created by the emotional sparks between a child, a book, and the person reading", Mem Fox.*

## What you get:

The course is divided into 2 x 2 hour sessions. The first session involves guided practice for mastering the read aloud skills. Four key components to storytelling - tone, mood, intensity and pacing - will be explained and modelled. The second session delves deeper into interactive read alouds and introduces a variety of favourite books to inspire a love of reading and learning.

To request more details, please contact Yvonne Leung at [yvonne@bringmeabook.org.hk](mailto:yvonne@bringmeabook.org.hk)

## Language:

English, Cantonese or Mandarin
